Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year’s IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2024-25. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

- ☒ Yes
- ☐ No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	5
Number of clock hours required for student teaching	210

Are there programs in which candidates are the teacher of record?

- ☒ Yes
- ☐ No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)
--

Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	215
Years required of teaching as the teacher of record in a classroom	1

All Programs	
Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff) Optional tool for automatically calculating full-time equivalent faculty in the system	0
Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)	9
Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year	37
Number of students in supervised clinical experience during this academic year	37

Please provide any additional information about or descriptions of the supervised clinical experiences:

Candidates complete several observations of their coaches during the training institute coursework, and then complete extended supervised teaching during the pre-service teaching phase and then during their resident teaching year (as the teacher of record.) Each of these periods of time are what has been counted as clinical experience.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Native Hawaiian or Other Pacific Islander	0	0
White	21	7
Two or more races	2	0

Race/Ethnicity	Total Enrolled	Subset of Program Completers
No Race/Ethnicity Reported	4	2

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2024-25.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐

No teachers prepared in academic year 2024-25

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2024-25. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

Note: This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☐ Yes

☐ No

☒ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

Teacher preparation coursework is highly performance based. Candidates engage in roleplay on working with students with LEP and a variety of needs, view and discuss video of classroom situations, and have required observations of classrooms at high need schools in the county. Candidates are made aware of the socioeconomic and cultural diversity of the local schools and the impact of that diversity through readings, observations, and classroom activities.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Report Progress on Last Year’s Goal (2024-25)

1. Did your program prepare teachers in mathematics in 2024-25?

If no, leave remaining questions for 2024-25 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

Goal is to prepare 5 total math teachers once again--two HS math and 3 MS math.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

We exceeded this goal. We have 3 in HS math and 6 in MS math

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2025-26)

7. Is your program preparing teachers in mathematics in 2025-26? If no, leave the next question blank.

- ☒ Yes
☐ No

8. Describe your goal.

Maintain same number of Math teacher candidates per cohort.

Set Next Year's Goal (2026-27)

9. Will your program prepare teachers in mathematics in 2026-27? If no, leave the next question blank.

- ☒ Yes
☐ No

10. Describe your goal.

The program is working with the LEA to determine the need for math teachers for the next cohort.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

☒ Yes

☐ No

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

☐ No

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Our program is aligned with the Maryland Teacher Technology standards, and all indicators are embedded in the various modules of our Teaching Institute. Our typically hybrid instruction model means that all students illustrate daily the ability to use a variety of technological formats to communicate and to create and deliver instruction. Training is provided in use of classroom technology specific to the MCPS classrooms as part of each class meeting of the Teaching Institute, and candidates use this technology in delivering their sample lessons. This technology includes the use of classroom response systems which allow teachers to assess students immediately in a formative way. During the Covid years, our program was continued in a completely virtual environment and our students were prepared to use all of the related technologies (such as Canvas, Blackboard, Zoom, Teams, Google Meets, etc) in order to communicate for their preparation as well as for their internship and other clinical experiences, which were also done in a virtual format for most of the reporting year. During the module on assessment, candidates learn to review and analyze typical testing and performance data for the MCPS student, and consider action steps for enhancing performance. During the resident teacher seminars, each candidate designs, conducts, and prepares a presentation on an action research project, which includes an illustration of their data collection and management tools.

Provide the following information about your teacher preparation program.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Significant portions of the Teaching Institute are dedicated to the module on working with individuals with exceptionalities; this includes an introduction to special education including IDEA principles and other related legal aspects, working with families and other school personnel, creating behavior plans, and designing differentiated instruction. Lessons created and presented must show that differentiation was planned for and can be carried out effectively. Students research and present on all areas of disability: "You will be assigned one of the 12 disability categories under IDEA. You will research, develop and present on your assigned category for approximately 25 minutes. You are expected to find relevant, up-to-date and useful resources on how to address and work with students with your assigned disability category."

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Significant portions of the Teaching Institute are dedicated to the module on working with individuals with exceptionalities; this includes an introduction to special education including IDEA principles and other related legal aspects, working with families and other school personnel, creating behavior plans, and designing differentiated instruction. The module on collaboration also prepares and assesses students on working with co-teachers in the middle and high school setting. Sample assignment for writing a behavioral support plan: "Given a case study, you will develop a positive behavior support plan for a student. You are required to read the students’ background and address the major component of a behavior support plan. Your plan should show thoughtfulness, alignment and must include the following components: Target behavior Goals and Objectives for behavior Academic/Teaching supports Behavior/social supports Rewards/consequences Collaboration plan Justification for selected strategies Data collection plan Reflection "

c. Effectively teach students who are limited English proficient.

Another significant portion of the Teaching Institute is the Diversity Module, which includes a full study of cultural competence, and creating culturally responsive classrooms has long been considered a strength area of the program. Supports for LEP students must be included in all lesson plans and demonstration lessons, as well as in any portfolios. Sample lesson direction: "This plan will include an inquiry-based approach to instruction or a cooperative learning approach during which the students are constructing or discovering knowledge. Planning requirements: You will be working with a class made up of 18 general education students of which contains students with disabilities and ELL needs. You will receive case studies for these students. This total of 28 students have an ethnic distribution of 10 white, 7 Latinos/as, 9 African American, and 2 are Asian American. Your lesson plan must reflect how you will meet the needs of these students within your lesson."

2. Does your program prepare special education teachers?

☐ Yes

☒ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Alternative Certification for Effective Teachers (ACET) MC-MCPS program was developed in 2006 as part of the Troops to Teachers grant funded by the Maryland State Department of Education. The MC-MCPS ACET partnership is designed to provide an alternative in Montgomery County for adults with bachelor’s degrees (or higher) in their content fields who wish to become certified teachers but do not need or desire to earn a masters’ degree. Although recruitment occurs year-round via the MC and MCPS web sites and posters, a major push occurs with distribution of MC schedule of classes in April, followed by monthly information sessions from April through August, held at all three MC campuses. Applications are received year-round, with typically one cohort selected each year. A new cohort supporting conditional teachers will be added during the 2025-2026 school year. As applications are received, Montgomery College ACET program faculty review applications for requirements, seeking input from MCPS HR Certification specialists as needed for transcript evaluation. Qualified applicants are invited to a 30-minute interview with the selection committee, composed of the ACET program coordinator, at least one program faculty member, and representatives from MCPS HR. A cohort of 15-18 candidates is selected based on interview, subject field needs and references. Pre service training occurs from December to March or from April to July, with candidates enrolled in a Teaching Institute. This institute includes a set of standards-based modules which are offered in a non-credit format, plus the first secondary literacy course, offered at MC as RD 238. Instruction is provided using a blended online/face-to-face model with class meetings at the Rockville campus on Tuesday and Thursday evenings and select Saturdays. (fully online during Covid shutdowns) A eight-week unpaid internship is offered during spring or fall semesters, with candidates being assigned to MCPS at either the middle or high school level. During the first week candidates generally observe in their placement classrooms. For the next few weeks they teach with daily supervision by the highly qualified teachers of record. Informal and formal observations occur throughout the internship. Candidates are actively involved and supported to set personal goals, practice their skills, observe mentor teachers, and revise their individual plans. After successful completion of the internship, potential residents meet with MCPS - HR to complete their hiring packets and arrange to interview with principals of schools who will be hiring in their certification area. Interviews and offers are then conducted in accordance with MCPS policy, and the resident is assigned to a one-year placement. Once residents are placed, intensive mentoring and supervision, along with cohort seminars, provides strong support for each teacher candidate. Students gather once a month as a group to support each other in a learning community, revisiting the ongoing discussions using Web CT, posting questions and getting feedback on the work they do in class. The program faculty mentors them in their placements within MCPS. An on-site consulting teacher (mentor) is available to them through observations, seminars, and individual discussion meetings throughout the residency. Residents must also successfully complete the Praxis II Pedagogy exam and Part II of the Secondary Literacy course, as well as the two seminar courses led by MC faculty. At the end of the academic year, if the resident has met the MCPS standards for satisfactory performance for a first-year teacher, as well as completed all the coursework and testing requirements, the resident will be recommended for standard professional certification. During 2014, this program participated in its second round of program approval for the Maryland Approved Alternative Preparation Programs (MAAPP). During the review process which culminated in a site visit on April 22, 2015, the preparation program met all standards and received full program approval. ACET will undergo another program approval process during the 2026 academic year.
